

DISCUSSION POINT

ON THE INTERNATIONAL BIBLIOGRAPHY OF ETHNOLOGY

Karin Maria Rooleid

The international bibliography of ethnology *Internationale Volkskundliche Bibliographie* has been issued periodically since 1919. The time frame of the bibliography is 82 years, from the year 1917 to 1998. In total 44 volumes have been published, of those 12 volumes covering one year, and 32 covering more than one. Up to the present the bibliography has been edited and printed in Switzerland, Germany, Austria and the USA. On 15 August 2002 the editing started in Estonia.

The publication of the next volume of IFB has been under the responsibility of the Chair of Estonian and Comparative Folklore at the University of Tartu (*Universität Tartu, Lehrstuhl für estnische und vergleichende Folklore*, Dr. Ülo Valk, chairman) and the Department of Folkloristics of the Estonian Literary Museum (*Estnisches Literaturmuseum, Abteilung für Folkloristik*, Dr. Mare Kõiva, head of department, Tartu; Karin Maria Rooleid, editor, Tallinn).

Other institutions involved continuous in the project are the German Society of Ethnology (*Deutsche Gesellschaft für Volkskunde* (DGV), Dr. Silke Götsch, chairman, Kiel) and the International Society of Ethnology and Folklore (*Société Internationale d'Ethnologie et de Folklore* (SIEF), *Commission for Bibliography, Information and Documentation*, Dr. Regina Bendix, chairman, Göttingen).

The publication is sponsored by the member of the Swiss Academy of Humanitarian and Social Sciences (*Schweizerische Akademie der Geistes- und Sozialwissenschaften*, Bern) Swiss Society of Ethnology (*Schweizerische Gesellschaft für Volkskunde*, Ernst J. Huber, archivist, Basel), by the Society of Ethnology in Vienna (*Verein für Volkskunde in Wien*) and the Austrian Museum of Ethnology (*Österreichisches Museum für Volkskunde*, Hermann F. Hummer,

archivist, Wien), the Museum of European Cultures (*Museum Europäischer Kulturen*, Dr. Konrad Vanja, chairman, Berlin), and the Institute of Saxonian History and Folk Culture (*Institut für Sächsische Geschichte und Volkskunde e. V. Dresden*, Dr. Enno Bünz, chairman, Leipzig and Dr. Winfried Müller, chairman, Dresden).

The volume for the year 1999 will be printed by the printing office Dr. Rudolf Habelt GmbH (*Dr. Rudolf Habelt GmbH Verlag*, Dr. Susanne Biegert, editor, Bonn). At the same time the databank will be available over the Internet (Bremen Universität, database manager, Klaus-Peter Busche). Also are proposed to continue the conferences of the IFB work-groups (*Kommission der SIEF, Arbeitsgruppe für die IVB*), for discussing technical matters related to the bibliography.

Unfortunately, the full set of IFB is not available in the libraries of Estonia. Out of the number of 44 volumes there are obtainable only 31 volumes, and even those are divided in between Tartu (17 vol.) and Tallinn (14 vol.). In Tartu, there are available 12 volumes (1917–1931/1932, 1957/1958) in the Library of the Estonian National Museum, 3 volumes (1931/1932, 1937/1938, 1955/1956) in the Archival Library of the Estonian Literary Museum, 1 volume (1995) in the Tartu University Library, and 1 volume (1998) in the Chair of Estonian and Comparative Folklore at the University of Tartu. All the other volumes are available in Tallinn, i.e. 6 volumes (1925/1926–1927, 1973/1974–1979/1980) in the Academic Library of Estonia, 5 volumes (1931/1932, 1935/1936, 1991/1992–1994) in the National Library of Estonia, and 10 volumes (1973/1974–1983/1984, 1995–1998) can be found in the Tallinn branch of the Folklore Department of the Estonian Literary Museum.

Therefore the material used in the current overview was gathered mostly from the articles of the previous editors of the bibliography, and printed publications related to this issue. In particular I would like to thank the most recent editor of bibliography Dr. Rainer Alsheimer for sending to Tallinn the indispensable copies, and 6 volumes of IFB (1973/1974–1983/1984).

The title of the publication:

1917 (1919) – 1935/1936 (1941): *Volkskundliche Bibliographie*

1948/1949 (1954) – 1977/1978 (1981): *Internationale Volkskundliche Bibliographie = International Folklore and Folklife Bibliography = Bibliographie Internationale des Arts et Traditions Populaires*

1979/1980 (1985) – 1998 (2001): *Internationale Volkskundliche Bibliographie = International Folklore Bibliography = Bibliographie Internationale d'Ethnologie* (IVB / IFB / BIE).

Print data

The total of 44 volumes / 82 years of IFB have been released thus far. As the first volume 1917 (1919) consists approximately 1,100 non-numerated entries, and all the other 43 volumes 1918 (1920) – 1998 (2001) consist 326,790 entries, thus the number of entries in total is 327,890. The result from this gives the average of entries per volume 7,452.

Changes of the editorial work in the last decade

1979/1980 (1985) the first computer-generated issue was published; the data processing programs SINIX and XDOC (München) based on the operating system UNIX, and the layout-program LATEX were tested; plans were made to release the bibliography as a CD-ROM issue.

1989/1990 (1994) several new rubrics were added to the bibliography: 3. Ethnicity, Identity, Living Styles (*Ethnizität, Identität, Lebensstile*), 4. Age, Gender, Group (*Alter, Geschlecht, Gruppen*), 5. Economy, World of Work, Occupations (*Ökonomie, Arbeitswelt, Berufe*), and 24. Media (*Medien*).

1991/1992 (1995) the database management program BISMAS (Universität Oldenburg) was applied on the databank (Universität Bremen).

1993 (1996) was restored to publish the bibliography as one-volume issue.

1995 (1998) the data processing program BISMAS (Universität Bremen, Klaus-Peter Busche) based on the operating system Windows95 was put to use in the databank of bibliography; the printed publication of IFB was generated by the layout-program LATEX (Roland Weibezahn, Achim); preparation work for the electronic publication of IFB was initiated (Meertens-Instituut, Amsterdam)

1996 (1999) for the first time the bibliographical contribution was submitted electronically on a floppy and as the attachment to an e-mail (Nordiska Museet, Dr. Dag. M. Hermfeldt, Stockholm).

1997 (2000) Dr. Rainer Alsheimer announced his resignation from the editorial post after the release of the volume for the year 1998 (2001).

1998 (2001) IFB data base contained ca 88,000 entries; for the first time a contribution was downloaded through the Internet (data-base program MARC).

Structure of IFB

The editor of the first volume Dr. Eduard Hoffmann-Krayer created the main structure and arrangement of rubrics of IFB. According to this, each issue of IFB comprises in addition to the entries also the list of host publications, the indices of authors and subject words. Nevertheless, during the years the content of some rubrics and the arrangement of rubrics had been changed (e.g. Ethnology as a Science; Economy, World of Work, Occupations; Objects; Architecture, Building, Dwelling). Some rubrics have been merged. For example, the issue edited by Dr. Robert Wildhaber 1937/1938 (1957) comprised specific rubrics 13. Folk Medicine (*Volksmedizin*), 14. Folk Meteorology (*Volksmeteorologie*) and 22. Names (*Namen*), that occur in the present-day issue only as subrubrics 16.C. Health, Illness, the Body / Healing, 15.D. Popular Knowledge / Weather and Star Lore, and 22.F. Language / Names. The editor of the volume 1989/1990 (1994) Dr. Rainer Alsheimer added to the system completely new rubrics 3. Ethnicity, Identity, Living Styles, 4. Age, Gender, Group, and 24. Media.

Likewise, in the course of the present editorial work the undersigned one had tried to comprehend the arrangement of the bibliography. For that reason the structure of IFB is now, in 2003, presented as follows:

Language

The main languages of the IFB are German, English and French. Therefore the titles registered in other languages should be translated into one of the main languages. As well the heading of chapter will be trilingual. But since most of the collaborators have been associated to the German-speaking culture area, i.e. to Germany, Austria and Switzerland, the subject index is presented in German language only.

Collaborators (*Mitarbeiter*)

Collaborators are competent professionals, working in a field of ethnology, folkloristics, or bibliography. The number of collaborators and volunteers has varied from volume to volume, ranging from 30 to 90. Estonian material in IFB had been registered by Dr. Walter Anderson from 1917 to 1960, by Dr. Ants Viires from c. 1970 to 1991/1992 (1995), and by Karin Maria Rooleid (Ribenis) from 1991/1992 (1995) to 1998 (2001).

At the beginning of 2003 there was in all 70 collaborators of IFB, of these 26 (37%) came from Germany and 14 (20%) from Austria. As well the Nordic and Baltic countries, Central and Eastern Europe, Latin- and South-America have been represented. See Table on facing page, continued on next page.
